Clinical Videoconferencing Program

PROVIDING SERVICES WHERE & WHEN PEOPLE NEED THEM

Mashkikiiwininiwag Mazinaatesijigan Wichiiwewin (MMW) Clinical Videoconferencing Program provides clinical services for adults (18 +) living with or suspected of having a developmental disability. This program is available for communities across Northwestern Ontario.

In partnership with local agencies, we work with individuals, families, caregivers and professionals to provide easy access to clinical services in their communities.
